## **LIST OF RECOGNISED CABLE DETAILERS FOR CITIPOWER / POWERCOR CONTESTABLE WORKS**

This Recognised Cable Detailers List is provided for the customer to identify approved individuals and companies who are recognised to complete and submit cable detailing associated with providing an underground electricity supply to their property.

This covers all new underground asset installations / alterations with regards to contestable works for Network Projects i.e. CIAW Option 2 – URD, Streetscape Works etc.

CitiPower/Powercor does not provide any warranty in regard to the contractors included on the following pages of this list. The contractors have met minimum electricity industry skill requirements to undertake the work. Inclusion on this list does not imply competency or capability beyond the minimum skill requirement. Nor does inclusion on list imply any comment on the business skills and practices or quality of the contractors listed.

A customer using this list to seek quotes and subsequently engaging a contractor will need to ensure that the contractor is “Recognised” for the particular type of work required. The customer will be directly entering into the contract to provide the services required with the Contractor. CitiPower/Powercor will not engage the contractors on behalf of the customer.

Inclusion on the list is subject to continued endorsement by Technical Records Manager, Electricity Networks.

### **Categories of Recognition**

The following categories of recognition are:

#### **Cable Detailing**

Nominated person is familiar with design and construction of electrical underground systems and is competent to undertake recording of “as constructed” underground assets on site. Assets are to be detailed in such a manner so that they can be re-established using basic survey techniques (i.e. Pedometer, Tape measure, Range Poles) from permanent reference points, e.g. Side entry/storm water pits, building lines and lot boundaries. Refer to Powercor/CitiPower Electricity Network Drafting Standards DD230 series

#### **Cable Detailing Categories**

**Level 1:** URD estates, large or complex commercial/industrial installations with multiple assets and supply points.

**Level 2:** Single substation UG installations, LV reticulation only installations.
